

Grizzly[®] Operator Manual Canisters

From hard back manuals to European sized A-4 paper, the Agmate line of canisters are designed to accommodate and protect a wide range of informational packets printed in various shapes and sizes

- All Canisters meet 2004 SAE J232 specifications
- Safety diagrams are bake painted bright yellow for easy and quick identification
- Molded from high density polypropylene which resists weather and impact damage.
- Neoprene seal locks out unwanted water and dirt from entering the internal chamber
- Molded holes offer an easy and effective mounting solution
- **All** Agmate Canisters accommodate paper sizes up to European A-4
